

Virus 01: Eradicating Epstein Barr Virus (EBV)

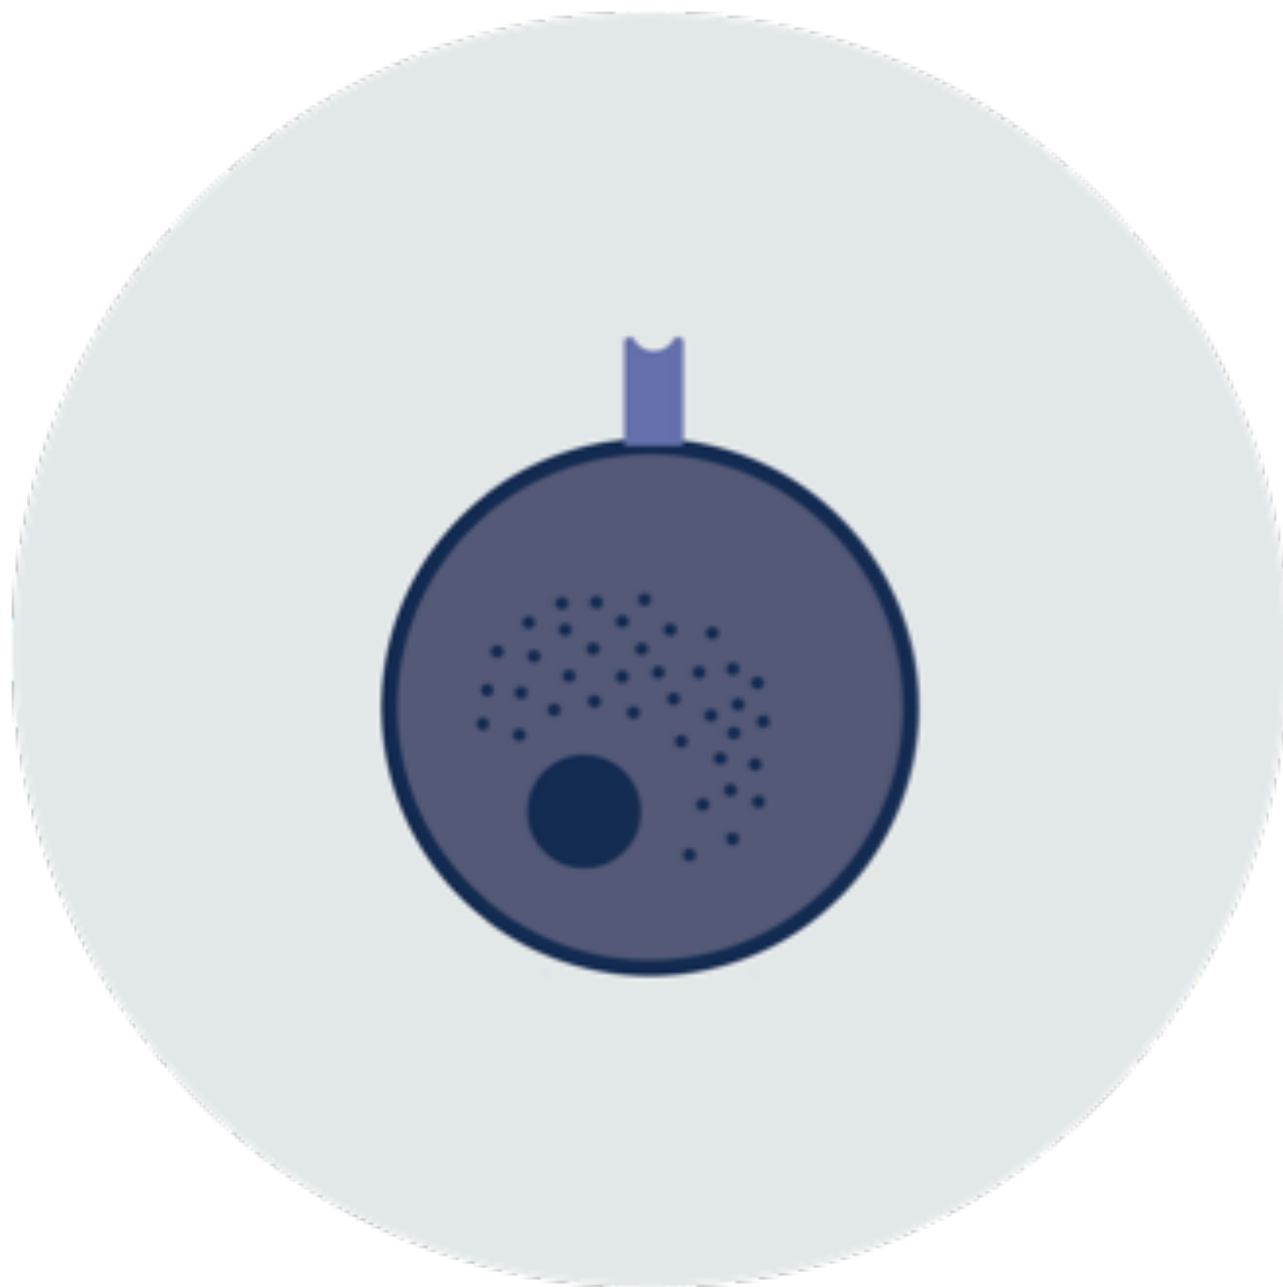

Epstein Barr Virus (EBV) attacks the body by hijacking our B cells, impairing proper immune system function. In this Medigraytion, we take you on a deep dive into the life cycle of your B cells. We will guide you to reeducate, reconstruct and redefine these cells to not allow EBV to cell or DNA access.

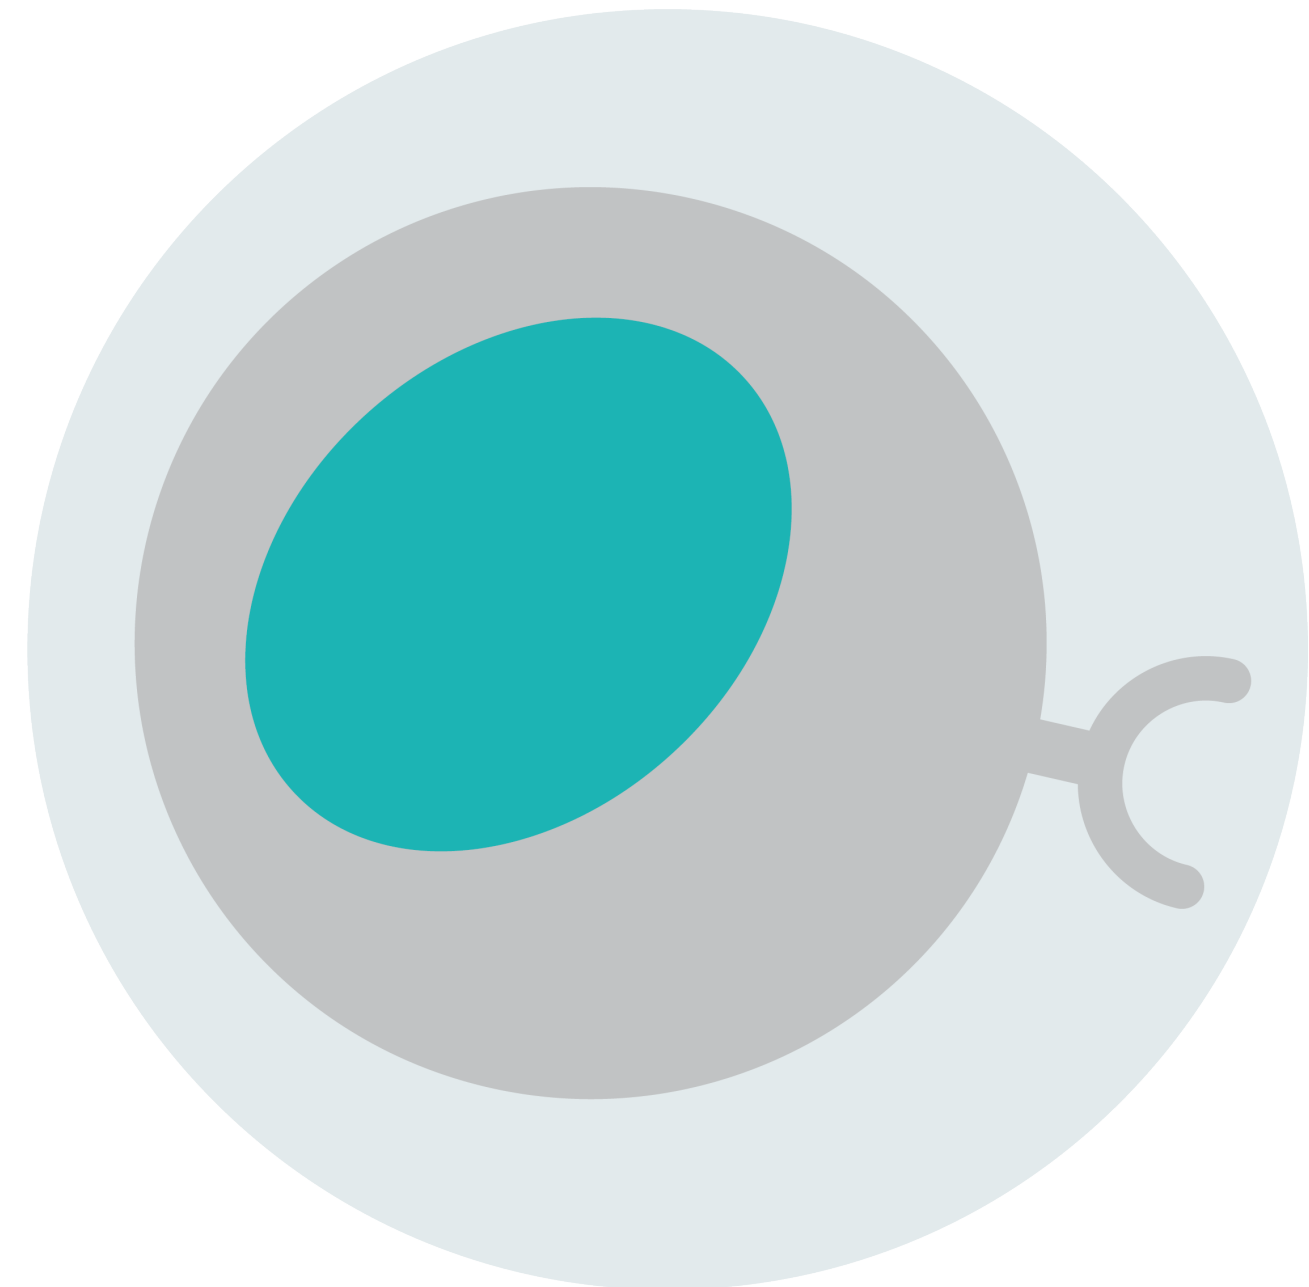

Basic Anatomy

Take a glance at these basic anatomy images. You don't need to study them a ton; just know their shapes and locations.
